SYSTEMS INSTALLATION

Worry-free technology where you need it most.

Midmark connected solutions are designed to improve patient-caregiver interaction at the point of care and beyond. However, integrating technology into your facility can present many challenges. Midmark trained integration teams engage early in your project with **the product knowledge and clinical expertise needed to ensure that your connected solutions are seamless and best suited to your unique clinical workflow.**

Midmark Systems Installation

- Wall-mounting of Midmark® Workstations and Midmark® Digital Vital Signs products
- Complete wiring of all Midmark connected solutions
- Setup and configuration of all Midmark digital diagnostic products
- Final quality audit ensures the exam room equipment is fully operational

01 Ensure that your technology is securely installed and seamlessly connected.

02 Final touches ensure that your equipment functions as you need it to before we ever leave your facility.
